ABOUT

Empathetic **front-end web developer** focused on crafting elegant, inclusive user interfaces for websites, applications, and digital experiences.

EXPERIENCE

Freelance, Web Developer
Jan 2023 – Present, Brooklyn, NY

Builds performant, effective websites for New York-based clients using static-site generators, content management systems, and front-end technologies.

Collaborates closely with businesses to understand their specific requirements, translating them into functional and visually-appealing websites for end-users.

The Predictive Index, Web Developer
Mar 2021 – Aug 2022, Westwood, MA

Developed responsive pages, templates, and reusable components for our marketing websites using HTML, CSS, PHP, and JavaScript within a cross-functional marketing team.

Collaborated with designers, engineers, and key stakeholders to test and ship scalable features following Agile development practices.

Built a single-page event platform using React for the *'22 Optima Conference* with chat messaging, user authentication via custom API, and live video feeds.

Championed accessibility and overhauled our marketing website to comply with the Web Content Accessibility Guidelines, resulting in a more inclusive and user-friendly experience for all visitors.

Bartlett Interactive, Web Developer
Jun 2019 – Feb 2021, Concord, MA

Developed bespoke websites using WordPress and Drupal for non-profits in the greater Boston area, including schools, libraries, and art centers.

Translated wireframes and design mockups into high-quality, interactive websites using HTML, CSS, PHP, and JavaScript.

Managed complex projects from initial sales pitch to final delivery, demonstrating exceptional time management skills and ensuring timely execution of each stage in the development process.

EDUCATION

University of Massachusetts Amherst
Class of 2018, Amherst, MA

B.S. Multimedia Informatics (Computer Science, Art, & Marketing)
