ABOUT

Empathetic **full-stack web developer** specializing in front-end technologies, focused on crafting elegant, inclusive, user interfaces.

EXPERIENCE

The Predictive Index, Web Developer
Mar 2021 – Aug 2022, Westwood, MA

Developed intuitive, performant web pages, templates, and reusable components using both client and server-side scripting languages.

Built a single-page, virtual event platform complete with live chat, user authentication, and swappable video feeds for 500+ attendees.

Championed accessibility in our websites by overhauling compliance to meet the standards of the Web Content Accessibility Guidelines.

Envisoned and implemented dynamic vector animations with the GSAP library to communicate the value of our products.

Bartlett Interactive, Web Developer
Jun 2019 – Feb 2021, Concord, MA

Managed web projects for 30+ active clients across the country, including schools, libraries, art centers, and other non-profit organizations.

Collaborated with designers to build web pages with HTML, CSS, PHP, and JavaScript using modern development workflows for WordPress.

Pitched agency services to prospective clients, estimated budgets and delivery timelines, and built trusted relationships with key stakeholders.

Performed regular system core and plugin updates for clients with service-level agreements to ensure optimal performance and utmost security.

EDUCATION

University of Massachusetts Amherst
Class of 2018, Amherst, MA

B.S. Multimedia Informatics (Computer Science, Art, and Marketing)
